NOTE THE NAME

REPORT OF THE PUBLIC SCHOOLS

Names of Reno Students Who Distinguished Themselves During the Past Month.

To the Board of School Trustees—GENTLEMEN: I herewith respectfully submit my report for the public schools for the month ending April 27, 1900.

The attendance has fallen off nearly fifty in two months the decrease being due to various causes operating at this time of year. Some families move back every spring to the country to look after their farms, older pupils drop out to work and get a little sickness prevailed in the community.

While attending the Lyon County Teachers' Institute a few days ago I learned much about other schools in Western Nevada. There is an awakening of interest in school work that is encouraging to all who take a pride in good schools. There is everywhere a strong tendency toward more practical work in the schools, a tendency to emphasize all features of school work that have a direct bearing on every day life. This tendency to be the keynote of the Lyon County Institute and it undoubtedly had an important effect for good on all the schools represented there.

Mr. Fred Walts' retirement to accept the Principship of the Austin school, while beneficial to him, was a misfortune to our schools. He was faithful, zealous and progressive. He was constantly broadening out himself and he inspired his pupils with a desire to learn, developing them into thinkers and workers—not set desirable results, and yet not often secured to the school room. The retirement of a good teacher in the middle of a term, or year, is always harmful to a school no matter how well qualified his successor, and the retirement of some teachers at any time would be a distinct loss.

There was published in the JOURNAL
in its issue of the 15th inst. a special
to the paper stating there had been a
report made by the Senate committee
of the Hepburn Nicaragua Canal bill
without amendment. The bill is now
before the Senate for its rejection or
approval. Hanna was the only mem-
ber of the committee present who op-
posed the report, which clearly shows
that the administration and imperi-
alists are opposed to the measure. It
was sent by the Associated Press to
coast papers taking report, and to the
JOURNAL twelve hours before it was
received through any other source in
the State. The Gazette, which is an im-
perialist's paper, failed to receive the
dispatch, and thereupon concluded the
JOURNAL's grape vine service was at
fault, and made a note of it, intimat-
ing that the JOURNAL had been imposed
upon and was, as a result, deceiving the
people. It is not surprising the Gazette
should so conclude, as it was pre-
sented the imperialists were all-pow-
erful in the Senate, and more particu-
larly was it justified in concluding that
no report had been made when Hanna
was presumed to be the controlling
power on the committee, who had said
that the committee would not report
the bill at this session, or at all, till the
Nicaraguan treaty had passed the Sen-
ate without the Davis amendment.

The work of enslaving the Saxon
and the Celt is not yet entered upon
in the sense it is applied to a weak
and enslaved people in the island of
Porto Rico. The Boer may be crushed
and his country imperialized by im-
perial power, but there is remaining in
the United States the bulwarks of
liberty in the land of the free, which
will have to be taken before the dollar
reigns supreme. There are more
Bryans in the United States than the
dollar has counted, and the Lincolns
are not all dead. The spirits of a
Jackson and a Jefferson are in the
woods and on the plains in this broad
land. The fastness of its mountains,
where liberty has had an everlasting
abiding place, will respond to the
spirit of seventeen and seventy-six and
wipe the foul stain of imperialism and
the power of the dollar, with its con-
sequences to the race and the human
family, from the earth.

There is a little light that breaks in
upon the darkness of imperialism
there is to the country in all depart-
ments at Washington when it is least
expected to come. The domineering
spirit of a Hanna, backed by imperi-
alist money power in the United States
and in England, is curbed in places
when it is taken as true by the imperi-
alist power that it is supreme in
authority.

The JOURNAL extends its sympathy
to the Gazette over the disappointment
it is under, caused by a report by the
committee of the bill, as there is not
anything that could give more trouble
to the paper than to learn that the dol-
lar has received a defeat from the man.
The dollar is so much in the ascend-
ent over the man as the Gazette sees it
from its position, that it must ever be
a source of pain when it learns the
man has had anything to say about
governing the country.

Pigs, cats and puppies have instincts
that nature has given them, and so
have things often called men instincts
given them, which it is as natural for
them to follow as it is for a serpent to
bite when it is disturbed. These things
often called men, strange as it may
seem, are and will be in trouble over
the accomplishment of anything good
when it is likely to benefit mankind by
aiding progress in general business
among the nations, which aids develop-
ment of the race in a way that will
prepare it to occupy a higher plane in
its efforts to attain a higher civiliza-
tion. The Nicaragua canal is a means
that will, when completed, tend largely
to develop trade and cause a more
rapid interchange of products, which
is absolutely necessary to a speedy de-
velopment of material and mental
power. What is required to advance
civilization is opportunity backed by
plenty of money and the necessary
means of speedy interchange.

The work of imperialists is to pre-
vent these conditions. Their efforts
are to keep the world as near as may
be in a state of sameness. Rapid in-
terchange is in opposition to their
schemes and purposes, unless it is
made to aid them to enslave mankind
by preventing interchange that they
may not control. When interchange
is active it requires money and plenty
of it to do business; hence the chief
means there is used by the imperi-
alists is to control the money volume
and thereby control business, and
through the control of business they
will control development, which gives
control of the earth and all there is on
it.

These forces operating upon each
other will do the work intended to be
done in the interest of the money
power, which includes a control of the
actions of men as absolutely as the
slave owner controlled the will and
actions of his slaves. The people
should be congratulated upon the suc-
cess of the man over the dollar at this
time, more particularly as the success
is made when the dollar above other
times is in the ascendancy at Washing-
ton.

Hanna, the chief conspirator against
the liberties of the people and the
country, and in the interest of the
dollar and against the man, has re-
ceived a rebuke, and through Hanna
the dollar has been given to under-
stand that the world is not yet tied up
to the imperialist rack to be carried

THE EXPENSE OF WAR
A BURDEN TO ENGLAND

Special to the JOURNAL.
BRISTOL, England, May 16.—In an inspired speech this
evening, Sir Michael Hicks Beach, Chancellor of the Exchequer
stated that the real danger to England lay in the enormous
and growing expenditures owing to the war. He stated his
belief that peace was in sight, but the working classes of the
country might expect hard times as a result of the enormous
drain on the resources of England.

Tremors in Mexico.

Special to the JOURNAL.
CITY OF MEXICO, May 16.—Three distinct shocks of
earthquake occurred this afternoon, many old buildings fell.
The shocks were of 15, 30, and 40 seconds' duration. A wild
panic resulted for a time, people rushing into the streets and
praying for mercy.

A Fire in Storey.

Special to the JOURNAL.
VIRGINIA, Nev., May 16.—The Baltimore Hoisting
Works on American Flat burned down tonight. There is a
costly steam hoist and pump plant on the premises. The prop-
erty was recently sold to the Fulton foundry for old iron. The
fire was evidently of incendiary origin.

Captured Arms.

Special to the JOURNAL.
MANILA, May 16.—Captain O'Connor's company of the
46th Infantry has captured the 25th rifles, 800 Hotchkiss and
50,000 Mauser shells, at Salin, Cavite Province.

BRIEF WIRED WORDS.

Both houses of Congress have agreed to adjourn on the
11th of June.
British casualties since the beginning of the war amount to
20,035, exclusive of the sick on the field.
It is rumored in Lisbon that President Kruger has ordered
the Portuguese consul to leave the Transvaal.
The report comes from Boer sources that Mafeking has
surrendered.
Two million dollars in American gold were shipped from
New York to Paris this week.
London society has ostracised Richard Croker because of
Tammany Hall's Boer sympathies.
A dispatch from Rome states that between thirty and forty
people were drowned by a boat capsizing at a fete.
Two deaths and a number of prostrations from heat have
already occurred at Chicago.
The Duke of Argyll has been offered the Governorship
of Australia.
Terrible accounts are received of the distress that prevails
in famine-stricken India. As yet the relief work is wholly in-
adequate to cope with the suffering.
Stephen Crane has contracted illness that will probably
prove fatal.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va.
About three years ago my wife had an at-
tack of rheumatism which confined her to her
bed for over a month and rendered her unable
to walk a step without assistance, her limbs
being swollen to double their normal size.
Mr. B. Maddox insisted on my using Chamber-
lain's Pain Balm. I purchased a fifty-cent
bottle and used it according to the directions
and the next morning she walked to breakfast
without assistance in any manner, and she has
not had a similar attack since.—A. B. PAR-

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. L. B. Hunt, of Lima Ridge, Wyo., by her doctor after vainly trying to cure her frightful case of stomach trouble and yellow jaundice. He didn't count on the marvellous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It is positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50 cents at S. J. Hodgkinson drug store.

Committee on Education Reports to the Reno Improvement Association.

A meeting of the Improvement association was held last evening. The principal business was hearing the report of the committee on education. The report was in brief as follows:

The question of a public library for Reno and vicinity, supported by taxation, is one which we believe is deserving of favorable consideration by the people of this community.

At different times in years past efforts have been made to establish and maintain a public library by private subscription, but in every case such efforts have been short lived. It therefore, we think, may be considered as settled that a public library of the character that should be possessed by this community cannot be successfully maintained except by public aid.

In order to make it possible to obtain a public library which should be supported as a part of our municipal government, a number of our interested citizens caused to be prepared a proposed statute covering the question, which they submitted to the legislature of 1895. The Act was passed, but was rendered null by the interpolation of a single word. The legislature two years later remedied their defect, so that now there is a statute which provides a feasible method of obtaining and supporting a public library.

In order to obtain the benefits of this Act the first and most important step is to obtain a petition signed by a majority of the taxpayers, or by taxpayers representing a majority of the taxable property. Such a petition will require for Reno school district the names of about five hundred taxpayers, or taxpayers representing about one million dollars, there being in Reno school district about two millions of dollars of taxable property and something less than one thousand taxpayers.

The lowest rate of taxation provided in the Act is ten cents on each one hundred dollars of taxable property, which of course amounts to but one dollar upon the thousand. This tax will produce for Reno school district a revenue of about two thousand dollars per annum, with increase corresponding to the increase of taxable property, which amount under wise and economical administration will go very far towards establishing a public library upon a permanent and substantial base.

A public library would not only be of great advantage to the students in our public schools and University, but it would be something that all our people, old and young alike, could enjoy the benefits of and would be an additional favorable advertisement for our growing and prosperous community.

Your committee recommends that this association have printed a number of forms for a proper petition to the Board of County Commissioners, and that it provide for the circulation of the same, and if deemed necessary that a suitable person be employed for the purpose; also that the Twentieth Century Club and all literary and educational societies and institutions in our community be invited to co-operate in the work of securing the petition adding in the work in general.

Respectfully submitted,

Mrs. Wm. WESTER, JR.,

Last Night's Rendition.

The bill at the opera house last night was "A Gold Mine." If the title had been "A Copper Mine," all the fever-stricken prospectors would have come in from the hills and the placard "Standing room only" would have been hung out. As it was, the theater was well filled.

The play last night was admirably staged. The scene of the drama is cast in California and London. The adventures of an honest but somewhat eccentric miner who goes abroad for the plot. Of course it all ends up with marrying and giving in marriage, as all properly constructed plays end.

If the Daileys will keep up the standard of last night's work for the balance of the week, they will be voted the best stock company that ever delighted Reno theater-goers.

This evening these capable players will present the great Frohman success, "Esmeralda." It is a simple love story with a counter plot, involving a worthless South Carolina farm which turns out to be a valuable iron mine. The Rogers sell the farm, and under the guidance of Mrs. Rogers move to Paris, where a portion of the family, particularly the "old man," are exceedingly ridiculous. Ultimately matters are righted through a number of highly interesting characters. It is a play that is sure to win public favor.

O. N. Harris, a former Carson attorney, has just won a water suit in Kern county, Cal., involving \$125,000, for which he received a fee of \$10,000.

IS AN ENEMY TO THE TOWN

A Hoary-Headed Sinner Who Drives Business From Reno.

On All Souls day—how appropriate the date—just four-fifths of a century ago, there was born in some place or other, not material to this story, an infant surnamed Gest.

For four-score years he has continued to live and is probably good for two-score more.

This Gest is President, General Manager, General Traffic Manager, General Passenger Agent and General Superintendent of the jerk-water line running north from this town, and which is known as the Nevada-California-Oregon railroad.

Under the management of a sane and sensible man this road would be a big dividend payer and a blessing to the community. As it is, it is no help to the town and a losing proposition to its owners.

Moran brothers—bond shavers of New York—own the road, and for some inscrutable reason, they have given its management into the hands of this silly old fellow, who has the manners of a hog, the profanity of a bull driver and the intelligence of a clam.

Old Gest has issued a pronouncement to the effect that the already sky scraping rates on cattle and sheep shipments are to be advanced. This means that the stockmen of North western Nevada, northeastern California and eastern Oregon will no longer make Reno their shipping point. P. L. Manigan says he will take his flocks and herds to the Oregon Shortline and others in the business will do ditto.

Then this octogenarian simpleton has made the tariff on lumber shipments prohibitive. Note the result: The Sierra Valley & Mohawk railroad will in a few months tap the Plumas county forests and deliver the goods at Boca. Reno business men are getting riled. If the old fraud was sixty years younger they would tell him what they think of him. As it is they will inform Moran Brothers.

Gospel Sharps.

Two hobo "evangelists" known as Oliver Brothers are making their way westward from Salt Lake. Just now they are attempting to rake in souls and dollars in Winnemucca. All the papers along the line—with the exception of the inspired Elko Independent—have sized these fakers up at their true unworth. Should they stop over in Reno the census enumerators will be assisted materially in their work. They can estimate the sucker drop to a nicety by merely counting their audiences. At present the Silver State is giving these foul mouthed gospel sharps particular fits.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Barnham of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought that she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her."

This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50 cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

Another Name Suggested.

O. Novacovich has been mentioned to the JOURNAL as a good man to fill the office of school trustee. This is an office which seeks the man. Mr. Novacovich will probably be surprised when he reads his name in this connection this morning, but he will doubtless accept the honors and duties if they are conferred upon him.

SOME MORE GEOLOGY

EDITOR JOURNAL: I noticed in a recent issue of the JOURNAL a communication from J. H. Brown purporting to explain the geological formations of a great belt of country surrounding old Peavine.

Some of Mr. B.'s statements should not pass uncorrected, as there was an evident intention to land apophite as a mineral bearing formation, and at the same time deny the quartz of the Peavine district.

The gentleman argued that there was no silica to speak of in the formations around the historic mountain. I have the word of several local assayers who have difficulty in fluxing most specimens brought to them on account of the large proportion of silica in the rock.

Apophite, or horn-blende, predominates in certain portions of this district, and is rarely found without carrying mineral, but at the same time there are a number of distinct quartz ledges in the district—for instance, the Chase & Morton and Holesworth & Redman mines. Both of these carry large values, and the latter named is a shipping proposition. Both of these properties are growing richer with depth and show no signs of "cutting out."

While apophite occurs in large dykes with values disseminated throughout, in quartz these values are concentrated.

Another quartz ledge in this district that might be mentioned is the Bonanza, owned by Miller, Stoddard, Gooding and Boney. The ledge is very wide and well defined and shows on the surface values in gold, silver and copper, running from \$10 to over \$100. Other ledges of quartz might be mentioned, but these are enough to show that apophite is not the only formation carrying values in the Peavine district.

Reno will be a good mining camp this fall, and apophite will be assisted by quartz in filling up the ore bins. PROSPECTOR.

A Strong Team.

The outlook at present is that the University of Nevada will put a strong football team into the field this fall. Nearly all the best players of the last team will remain in college next year and there is always a supply of good new material showing up in the fall semester. News was received the other day that M. E. Ward, the crack left guard of a former season, was coming back to college.

THE CENTAUR COMPANY, NEW YORK CITY.

Best in the World

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough. Having read their advertisement in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by Wm. Pinniger.

Perfect Machines.
